## Open House for Eno River Sewer Pipe Replacement Project

*Public Invited to Informal Meet & Greet, Q&A Regarding Upcoming Project*

DURHAM, N.C. — In an effort to provide information and answer questions about an upcoming sewer replacement project, the City of Durham Department of Water Management will host an open house on Thursday, September 28 at Eno Valley Elementary School at 117 Milton Road. Area residents are encouraged to stop by the school cafeteria between 6:30 and 7:30 p.m. to learn more about upcoming work, and meet employees from Water Management and McKim & Creed. Comments and questions are welcomed and appreciated. There will be breakout sessions, project posters, and other resources detailing the project. Comment cards and signup sheets will also be available to guests interested in additional information. This is an informal event, and guests may attend at any time during the hour.

### About the Eno River Sewer Pipe Replacement Project

The Department of Water Management is undertaking an analysis, design, and construction replacement of much of the sewer pipe, as well as upgrades to its Eno River Lift Station, near the old Teer Quarry in Durham. The pipeline is nearing the end of its service life and requires replacement to address wet weather and future flows, while minimizing the potential for Sanitary Sewer Overflows (SSOs). Please visit <http://durhamnc.gov/3090/> for project info, or submit comments to [enoriveroutfall@durhamnc.gov](mailto:enoriveroutfall@durhamnc.gov).

### About the Department of Water Management

The Department of Water Management is responsible for the operation and maintenance of Durham's water supply, water treatment and water reclamation (wastewater treatment) facilities, the collection and distribution systems (including meter reading), and customer billing services. The department has a wide variety of support divisions and programs to maintain the existing

infrastructure that provide these integral services, and strives to be a responsible steward of the City's physical assets. For information, visit <http://durhamnc.gov/944/>, like [Durham Saves Water](#) on Facebook, and follow [@DurhamWater](#) on Twitter.
